Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Drawings

1. Figures 1-5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:

a. Pg. 3, lines 7-8, applicant uses the phrase ""pilots", also known signals". Examiner suggests applicant re-write these lines for clarification purposes. Appropriate correction is required.

Claim Objections

¶ 7.05.05 Duplicate Claims, Warning

3. With regard to claims 2 and 3, applicant is advised that should claims 2 and 3 be found allowable, claim 2 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close

in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 112

4. Claims 2 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

a. Claims 2 and 3 recite the language "if, then". Examiner asserts that "if" implies more than one outcome. A claim has to have a definite step, one way or the other. There is no definite step claimed.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Applicant's Admitted Prior Art.

(1) With regard to claim 1, Applicant's Admitted Prior Art discloses in (Fig. 5) a method of improving receiver performance by avoiding bad pilots, the method comprising: using a pilot mask in the receiver, wherein the pilot mask includes a set of

flags, the set of flags associated with certain sub-channels, wherein each flag in the set of flags determines whether its associated sub-channel is usable for pilot tracking (Pg. 12, lines 9-13).

(2) With regard to claim 4, claim 4 inherits all the limitations of claim 1.

Applicant's Admitted Prior Art discloses "wherein the pilot mask includes a set of flags, the set of flags associated with certain sub-channels". Examiner asserts that this limitation encompasses the recitation of claim 4: "wherein the set of flags includes 52 flags associated with 52 sub-channels" (Pg. 12, lines 9-13).

(3) With regard to claim 6, see rejection of claim 1.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Admitted Prior Art, as applied to claim 1, in view of Examiner's Official Notice.

(1) With regard to claim 5, claim 5 inherits all the limitations of claim 1. However Applicant's Admitted Prior Art does not disclose wherein the pilot mask is usable for any data rate.

However Examiner takes Official Notice to the fact that it is inherent that any data rate can be used because the data rate is used to specify the rate at which circuits or other devices operate when handling digital information. Therefore it is inherent that any data rate can be used.

Therefore claim 5 does not constitute patentability.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cicely Ware whose telephone number is 571-272-3047. The examiner can normally be reached on Monday – Friday, 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571-272-2988. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9314 for regular communications and 703-872-9314 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-3900.
